SUPREME **QUALITY ALL ALONG THE LINE**

EASY TO DON – patented synthetic inner coating
SKIN-FRIENDLY – the Sempermed post-production process
OPTIMUM SAFETY – ideal tactile properties

QUALITY ALL ALONG THE LINE

Sempermed® Supreme stands for quality and reliability not without reason, it is one of the most frequently used powder free surgical gloves in Europe.

■ EASY TO PUT ON

The lining does not form a smooth surface, but has a special net-like structure. This optimises the contact surface between the film and the skin, thus considerably reducing the friction resistance when putting on the glove. The surface of the glove leaves a pleasant, velvety feeling on the skin.

■ OPTIMISED COMFORT

Developed specifically for the requirements of the operating theatre, the fully anatomical shape with curved fingers corresponds with the natural, relaxed hand posture. The conical cuff is anatomically designed to fit the wrist, and the beading on the cuff provides a safe border to the gown.

■ IDEAL TACTILE PROPERTIES

Due to its resistance, the wall thickness of the Sempermed® Supreme has been reduced to such a level that your tactile sensitivity is not in the least impaired, while at the same time providing optimal safety. The glove feels like a second skin.

■ SKIN-FRIENDLY

Sempermed has a specially developed, automatic finishing process in which the gloves are washed intensively a number of times. Skin-irritating substances resulting from the production process and the natural latex protein concentration are thus reduced to the technically lowest level.

TECHNICAL DATA

TYPE	sterile surgical glove for single use, powder free, with synthetic lining	
MATERIAL	natural rubber latex (NR)	
COLOUR	natural white	
GLOVE SHAPE	fully anatomical with rolled rim	
SIZE/OVERALL LENGTH as per EN 455-2	5½, 6 and 6½ / median 270 mm 7, 7½ and 8 / median 280 mm 8½ and 9 / median 285 mm	
WALL THICKNESS measured in single layer in the palm area	0.19-0.23 mm	
BARRIER PERFORMANCE Tightness exceeding EN 455-1 (AQL 0.65 instead of AQL 1.5)	AQL 0.65	
FORCE AT BREAK as per EN 455-2	median 12 N	
DURABILITY in original packaging if stored as per DIN 7716, ISO 2230	3 years	
STERILISATION	radiation STERILE R	
PACKAGING	left and right glove turned inside out, in fibre-free inner pouch, ozone-tight, sealed in flat medical peel pack. in dispenser carton with sterilisation indicator: 50 pairs in transport carton with sterilisation indicator: 300 pairs	
LABELLING	EN 455-1/-2/-3/-4, EN 420, EN 421, EN ISO 374-1, EN 374-2, EN 556, EN 16523-1, EN 374-4, ISO EN 374-5, ISO 15223-1	
PURPOSE as set out in MD Directive 93/42/EEC as set out in PPE Regulation (EU) 2016/425	medical device class IIa single-use protective glove – PPE category III (protection against chemical substances for limited time)*
